TRILUME PRO KIT

ADVANCE LASER WEAPON SIGHT DESIGNED TO DELIVER UNMATCHED PRECISION AND VERSATILITY. THIS CUTTING-EDGE SYSTEM COMBINES FLASHLIGHT, VISIBLE / INVISIBLE AND INFRARED LASER AIMING, ENHANCED BY A POWERFUL ILLUMINATOR FOR SUPERIOR TARGETING IN ALL LIGHTING CONDITIONS, ENSURING OPTIMAL PERFORMANCE FOR BOTH DAY AND NIGHT OPERATIONS."

VERSATILITY :

DURABILITY :

COMBINES A HIGH-PERFORMANCE FLASHLIGHT, LASER POINTER, INFRARED TARGETING, AND ILLUMINATOR, INTO ONE VERSATILE UNIT, ENSURING FAST AND ACCURATE AIM IN ANY ENVIRONMENT. DESIGNED FOR LONG-RANGE APPLICATIONS, IT FEATURES A PICATINNY RAIL MOUNT FOR SEAMLESS INTEGRATION WITH YOUR WEAPON, ALLOWING YOU TO ENGAGE TARGETS UNDETECTED, EVEN IN COMPLETE DARKNESS.

EXCLUSIVE FEATURES

- **2000 Lumens of Bright, TIR-Focused Light:** Delivers powerful illumination, ideal for both close and long-range missions. Equipped with a quick-release mount for exceptional versatility, allowing secure attachment to any standard rail.
- **Durable, Lightweight Aircraft-Grade Aluminum Construction:** Built for toughness, providing a strong yet lightweight design.
- **Dual Remote Pressure Switch:** Enables rapid momentary activation, offering enhanced control and ease of use in tactical situations.

THE ULTIMATE SOLUTION FOR PRECISION TARGETING, ENGINEERED WITH SUPERIOR DURABILITY THROUGH A REINFORCED AIRCRAFT-GRADE ALUMINUM CONSTRUCTION, ENSURING LONG-LASTING PERFORMANCE EVEN IN THE HARSHTEST CONDITIONS

EXCLUSIVE FEATURES

- **IP68 Water Resistance & 3M Shock Resistance:** Engineered to endure extreme conditions, this product is fully water-resistant and highly shockproof, ensuring reliable performance in harsh environments.
- **Hybrid Beam Pattern:** Designed to provide precise target identification (PID) at medium to long-range distances, with sufficient spill light to improve situational awareness.
- **Co-aligned Visible & IR Laser System:** Combines visible and infrared (IR) laser pointers with an IR laser illuminator. Adjustable power settings offer low power for training and high power for operational use.

SPECIFICATIONS

Power Sources : CR123A x 1

Color : Black

Dimensions (L X W X H) : $\pm 78,5 \times 77,5 \times 42,5$ mm

Weight : ± 210 g - 215 g

Construction : Aircraft Alluminium

Battery Life: >6 hours (High),

Visible Point

Wavelength : 505 ~ 530 nm (Green)

Laser Output Power : 4 ± 1 mW (Low), 15 ± 5 mW (High)

Beam Divergence : < 0.5 mRad

IR Point

Wavelength: 820 - 860 nm

Laser Output Power : < 0.7 mW (Low), 45 ± 5 mW (High)

Beam Divergence : < 0.5 mRad

IR Illuminator

IR Illuminator Wavelength : 820 - 860 nm

Laser Output Power : 4 ± 1 mW (Low), 80 ± 20 mW (High)

Beam Divergence : 1 mRad to 9° (degree)

Windage/Elevation Adjustment : Yes

Laser Sight Function :

on-off/Constant on/Strobe/All function can be worked up to 5 mins

auto shutdown, flashlight controlled

Indicator : IR Illuminator/VIS&IR point/ Fire Indicator

Operating temperature : Visible Laser Point; IR laser point;

IR illuminator $-40^\circ \sim 65^\circ$ C (-40° F - 149° F);

Water Resistant : IP68

Remote Cable Switch : 2 type

Mount : 1913 Picatinny Rail

Distance: Day 20-50m, Night 2000-5000m

Power settings offer low power for training and high power for operational use

Flashlight Quick Release Mount Systems

Shock Resistant : 200g

Laser visible < 6 hrs, infrared < 11 hrs, flashlight < 1 hour, illuminator < 9 hrs

Standard Sets Package :

- 1 Pcs Hard Covered Carrying Case
- 1 Pcs Alignment Plate
- 1 Pcs Dual Remote Pressure Operating Switch
- 1 Pcs Polyester elastic band
- 1 Pcs Trilume Pro Kit
- 1 Pcs Battery CR123A
- 1 Pcs Lens cloth
- 1 Pcs Manual User/Manual Book
- 1 Pcs Flashlight Brightness : 1000 - 2000 Lumens
- Customization Engraves *
- 5 years of spare parts support
